

## Willkat PL 2K

### Scope of application:

Non-frothing, elasticized two-component resin with great adhesion, even on damp surfaces, for the purposes of rehabilitation and sealing of sewer tunnels and pipes.

- Soaks glass fiber mats (Advantex) or polyester mats well
- Even adheres to damp surfaces
- Does not foam, even in cases of ingress of water
- Hardens well in thin layers
- Shuttering can be removed from the mold easily

### Advantages:

- Incorporated quickly: Cycle time approximately 60 minutes
- No odor nuisance
- Cost-efficient repair design

### Delivery Form

Component A:

10 l = 14,9 kg inside a tinplate container

250 ml = 0,37 kg inside a tinplate can

Component B

20 l = 22,6 kg inside a tinplate container

500 ml = 0,57 kg inside a tinplate can

Other forms of delivery on request

### Approval and reports:

DIBt approval

Drinking water and ground water hygiene testing (Institute of Hygiene, Gelsenkirchen)

Liner material testing for partial rehabilitation purposes (engineering office Seibert, Oststeinbek)

### Article numbers:
