

Trelleborg Aspikler N

The Aspikler N is a suction hose for purposes of cassette boom operation on sewer cleaning vehicles. The hose is characterized by its high abrasion resistance and its flexibility even if low temperatures are involved.

- Temperature range: -30°C to +80°C
- Inner tube: SBR, black, smooth, electrically conducting, not resistant to oil
- Casing: synthetic inserts with spring steel spirals
- Cover: SBR, black, not resistant to oil, abrasion-resistant, smoothly textile patterned
