

Polyflex 2380N

This ultra-high pressure hose from the Parker Polyflex product range is primarily used as a gun hose due to its excellent flexibility and pliability. As such, it is primarily used in the construction and marine industries as well as for general industrial cleaning.

- inner tube: polyamide
- pressure carrier: two spiralized layers and two open spiral layers of steel wire
- cover: polyurethane
- temperature: -10°C to +70°C
- colour: black
